Weather Forecast.

For North Carolina—Fair, continued cool Sunday; Monday, fair; light to fresh North to Northwest winds.

Banker Dougherty, of Peoria, Ill., embezzled $500,000 of the school fund. We are surprised that he would try to get down to the level of the reconstruction Republicans in North Carolina in the years immediately following the war.

A newspaper editor reminds Alfred Austin, the English poet laureate, that "subjects for odes have been exhausted." We are surprised that a newspaper man should entirely overlook the fact investigations and disclosures show that everything is oderiferous.

A New York woman, tired and dragged down, got on a street car, and "no gentleman" offered her a seat till she drew out a crisp $10 bill and offered it for a seat. It is not stated whether anybody reached out for the long green or not but evidently the woman knew that the seat hogs were mean enough to have the tender of the money made to them.

Says our esteemed contemporary, the Asheville Citizen: "It was a memorable day for the widow of Stonewall Jackson when the President of the United States paid tribute to the memory of her illustrious husband." It was a still more memorable day for Mr. Roosevelt. It is once in centuries that a President has the opportunity of meeting the widow of a Stonewall Jackson.

President Roosevelt, dissatisfied because some of the cabinet members, gave the newspaper men news about cabinet meetings, issued an order that hereafter no news shall be given out except by Private Secretary Loeb. Looks like a request to the cabinet members ought to have been sufficient to stop the leak of information. In the days when men stood on their dignity every man in the cabinet would have walked out of the shebang.

Poor Jesse James was shot to death like a suck-egg dog and was not allowed to live to see the day that holding up trains and robbing people at the point of the pistol was no way for a gentleman to act to get big money. Such commonality as that didn't get as much in a life time as one day's operations of the kid-gloved, silk-hatted and frock-coated gentleman of the frenzied financier class. Method suavely carried out has the box-ankled highwayman's plot skinned to a finish.

BLOCKED HOSPITAL AMBULANCE.

Negro Fined In Mayor's Court Yesterday For Obstructing Street.

William Elliott, colored driver of a delivery wagon for the Consumers' Ice Company, was arraigned before the Mayor yesterday charged with obstructing the street. Dr. Joseph Akerman, surgeon in charge of the James Walker Memorial Hospital, appeared as the prosecutor. Dr. Akerman said the hospital ambulance had an emergency call yesterday morning to come for the colored workmen injured in the collapse of the wall on Princess street. As the ambulance came down Red Cross, between Eighth and Ninth the ice wagon blocked the way and as it returned to the hospital, the wagon again blocked the way on Red Cross, between Seventh and Eighth streets. The negro paid no attention to remonstrances, he said. The Mayor fined Elliott $5 and costs, which amount was paid by his employers.

AMBULANCE BUSY

Many Emergency Calls to Hospital From Various Sources Yesterday and Last Night

WALL FELL ON WORKMEN

Boy Shot Through Hand—White Engineer Severely Cut—Negro Slashed at "Hobby Horses"—Man Had Foot Mashed Off on Rail.

From early morning until late last night the hospital ambulance was kept on the move, responding to no less than half a dozen emergency calls in addition to the regular number of what are known in hospital parlance as "sick calls." The chapter of accidents was due to no special cause and came from as many parts of the city as there were accidents. It carried out the truth of the old "saw" in the newspaper profession that "when it rains it pours" and "accidents never come singly."

Three colored brick masons, at work on the foundations at the rear of the new building of Mr. J. M. Bunting, on Princess, near Second street, were caught under a falling door yesterday morning about 7:30 o'clock and all of them were more or less injured. Thomas Boone and Chas Jackson two of the number, had to be sent to the hospital in the ambulance, while the third was little hurt and was able to go home. When the old building on the site of the new one, now under course of construction at the location named, was torn away a week or two ago, the side of the livery stable in the rear, was left open and had to be planked up. An old sliding door was used as a part of the protection and it had been propped up from the outside. While making excavations for the foundation walls of the new building, it appears that the props were partially undermined. While the masons and helpers were busy on that end of the foundation, the props suddenly gave way and the door fell over on three of them. They were pinned to the ground under the planking but the wall, already a little above the level of the surface, broke a part of the weight, else they might have been injured more seriously. The ambulance was at once summoned and Boone and Jackson were taken to the hospital by orders of John Harris, the colored contractor in charge of the work. Jackson has his arm hurt while Boone, who is worst injured, was right seriously hurt about the back. They were both doing very well at the hospital last night.

White Engineer Slashed.

Last night about 10:30 o'clock, a telephone message from Hardin's Palace Pharmacy notified police headquarters that a white man had been severely cut and was in front of the old "Marlborough House," on South Front street. The hospital ambulance was out responding to another call and the police patrol was sent in charge of Hall Officer J. J. Moore. The man proved to be Andrew Blair, 46 years old, an engineer at the Delgado cotton mills who lives with his family on Fifth street, between Castle and Queen, in this city. Officer Moore found the man lying on the edge of the sidewalk, bleeding profusely but perfectly conscious. He declined to say who cut him or where it was done. Policeman E. R. Chadwick first found the injured man, but could get no satisfaction from him. He appeared to have a stab in the right forearm, one under the left arm and a gash about three inches long under the right shoulder blade. He was taken at once to the hospital where his injuries were dressed by Dr. Akerman. He was not thought to be in a dangerous condition at an early hour this morning.

His Foot Mashed Off.

Last night about 10 o'clock Mr. Joe Roderick, night watchman at Robinson & King's naval store yard at foot of Orange street, heard cries of distress below him and ran down the dummy line on Water street over which a shifting engine had just passed, going in the direction of the Wilmington Cotton Mills. Mr Roderick ran in the direction of the cries of help and found Ed. Herring, a well known white fisherman about the market, lying by the side of the track. His right foot mashed into a pulp, evidently by the shifting engine that had just passed over. Mr. Roderick notified the police station by 'phone and in turn Police Captain Smith summoned the ambulance, which responded and took the injured man there. He was attended by Dr. D. W. Bullock and it was found necessary to amputate the foot about half way up the calf of the leg. Herring had been drinking heavily and the presumption is that he lay down by the track, his right foot extending over the rail. He was unable to give any account of the accident and the crew of the shifting engine knew nothing of the trouble.

Slashed at "Hobby Horses."

Charles Graham, colored, 18 years old, was slashed under the left arm, a gash about two inches long and one-inch deep, by a razor in the hands of another negro at the merry-go-round on the carnival grounds last night between 10 and 11 o'clock. Graham was taken to Bellamy's drug store and later sent out to the hospital. The wounded negro said he didn't know the name of the man who slashed him, but that he had trouble with him before and would recognize him if he should see him again. After having his wounds dressed, he was sent home.

Boy Shot Through Hand.

While carelessly handling an old four-barrel Derringer at his home, No. 1107 North Third street, yesterday about noon, Edward Niendorf, 14 years old, shot himself through the hand. One of the barrels of the pistol would not slip back on the handle and the boy struck the end of it with the palm of his hand. The barrel slipped back with a bang and the ball tore through the flesh. The boy was taken to P. O. Hall's drug store whence Dr. Pride J. Thomas removed him to the hospital. He is not seriously hurt.

Struck With a Bottle.

Last night about 11:30 o'clock, while returning from the carnival grounds, Mr. L. M. Wilson, a conductor of the Consolidated Company, was struck on the side of the face with an empty whiskey flask in the hands of a young white man who crossed the street at Seventh and Market and wielded the bottle by the neck. Mr. Wilson didn't know the young man and was probably mistaken for some one else. The bottle cut an ugly gash on the ear and check, necessitating attention by a physician. The fire department was responding to a still alarm in the vicinity at the time and Assistant Chief W. P. Monroe chased the young man for several blocks, but could not catch him. He lives at Delgado and was making good time in that direction when the special officer saw the last of him.

AT THE ACADEMY.

"Because He Loved Her" Opening Bill To-morrow Night.

The play for Monday night, which marks the opening of a week's engagement in this city by the Woods-Browning Stock Company will be that greatest of all heart stories "Because He Loved Her," claimed to be one of the greatest metropolitan successes of the day; a play intensely moral in its construction, and teaching a beautiful lesson, as pure as the thoughts of childhood and as sweet as the perfume of the flowers; a play that does not appeal to a limited class, but to everyone with a spark of human sympathy and a liking for a good wholesome story and a relish for good, wholesome fun.

There is nothing in the entire production to offend even the most sensative and throughout the evening the audience is treated to an entertainment that but too plainly depicts throughout every line a sweet, simple story and a heart throb.

Neat and refined specialities are introduced between each act, making the performances continuous and completely relieving the monotony of waiting through an intermission.

On tomorrow night one lady will be admitted free when accompanied by an escort with a paid admission. Popular prices will prevail during the engagement.

THE COLONIZATION PROJECT.

First of Agreement With Settlers by Trucking Development Co.

The first evidence of the effort of the Carolina Trucking Development Company to colonize immigrants upon its large holdings of land in Eastern North Carolina, contiguous to Wilmington, made its appearance on the records at the Court House yesterday in the form of an agreement with Nicholas Loupy and Isitaros Giakio to furnish them during the years of 1905 and 1906, the facilities and financial assistance to develop on Lot No. 27, of the "Rocky Run Tract," a fruit farm. Settings are to be furnished the immigrants for peach, pear, apple, grape, fig, almond and olive plants; also, graftings of walnut, chesnut and cherry trees. The names of the foreigners sound quite well enough in connection and the fruits to be grown and the experiment will doubtless prove a success. The agreement with the two mentioned is believed to be the forerunner of hundreds of other similar arrangements for developing the large holdings of lands, which the company acquired some time ago and is already developing.

Accident to Hose Wagon.

The hose wagon from Station No. 1, Fourth and Princess streets, was wrecked yesterday morning about 9 o'clock while turning the corner at Fourth and Grace streets. An alarm had come in on account of a trifling blaze at Seventh and Grace and the wagon was just rounding the corner, when one of the horses pulled off and the vehicle ran up on the sidewalk, a wheel striking the stone curbing and breaking an axle. Driver Will Merritt and Hosemen C. H. Tatum, John Keyes and Oscar Wells were thrown from the wagon, but were only slightly hurt. One of the firemen recovered himself in time to run to the heads of the horses and quiet the animals before they dashed off again.

Funeral of Mrs. Kirkham.

The funeral of the late Mrs. W. J. Kirkham, was conducted at 3:30 o'clock yesterday afternoon from Grace M. E. church of which she was so long a devoted member. The services were by the pastor, Rev. N. M. Watson, and many friends of the good woman and the family were present to pay a last sad tribute of respect to one whom they loved. The floral offerings were many and very handsome. The pall-bearers were: Honorary, Dr. W. J. Love and Mr. Samuel Northrop; active; Messrs L. W. McLaurin, W. W. Hodges, L. H. Skinner, B. J. Jacobs, R. W. Price and Joseph M. Ferreldo.

Oriental Bazaar Opening.

Messrs. Gorra & Maloff have opened "The Oriental Bazaar," in the Whitlock store in the Y. M. C. A. building, No. 305 North Front street. The ladies are especially invited to call Monday and during the present week to examine the stock which consists of all kinds of Japanese and Chinese cantung and satsuma chinaware; fancy goods of every description, including the famous Florentine Duchess, Naepolitan and Cluney laces; antique brasses, Bohemian glass and Cameo ware. Persian and Turkish rugs are a specialty.

CARNIVAL IS NO MORE

Financial Success of Red Men's Fall Festival Closed Last Night is Certain

SHOW TENTS ATTACHED

Side Performance People Made Claim For Breach of Contract and Held up Three Tents—The Crowds Last Night—Other Notes.

The carnival is over. The curtain dropped upon the scene of a week's gaiety as the clock struck twelve last night. The district to-day will present the view of "some banquet hall deserted," for long before the break of day this morning much had been accomplished in the way of tearing down the tented city and removing the paraphernalia in cars of the Seaboard Air Line for transportation to Maxton, N. C., where a fair will be given this week under the auspices of the Masonic fraternity.

The carnival here was a success in more ways than one. It provided a continuous round of pleasures for the young people of the city and many who came from the country to see the sights and it leaves with no apparent unpleasant after-effect. The shows were generally pronounced good, clean and were well patronized. From a financial point of view, the fair was a great success. It will net the Red Men something like $1,000, which will be applied to a fund with which they propose at no distant day to erect for themselves a handsome lodge building in Wilmington. It will be, of course, several days before the exact amount of the proceeds will be known as all the expense accounts must be met and considerable will have to be expended in cleaning up and repairing the streets, as was guaranteed the city authorities.

Attached Three Shows.

Last night just before the doors of the various attractions closed, Messrs. Jones and Adams, owners of the aggregation, were served with an attachment secured from the Clerk of the Superior Court by Kalil Nader, alleging an indebtedness of $2,400 as damages for breach of contract. Nader is a foreigner and owns the Oriental Theatre Show, which was a part of the carnival aggregation and located the past week on east side of Second, between Market and Princess streets. The plaintiff is represented by Wm. J. Bellamy, Esq., and alleges in his complaint that he had a contract with Messrs. Jones & Adams, of date August 2nd, by which he agreed to furnish for a season of twenty weeks an Oriental theatre show and Hindoo basket trick; that he and his company performed their part of the contract, but that Jones and Adams dismissed them and terminated the contract contrary to law. The attachment was placed in the hands of Deputy Sheriff W. H. Cox and was served by him and Constable Savage between 11 and 12 o'clock, Deputy Cox taking charge of the Zoo and Constable Savage taking charge of the Bold Bank Robbery and the Oriental theatre tent, those being regarded of sufficient value to cover the claim if it should be sustained. The carnival management at once sent for Mr. Marsden Bellamy upon the attachment of their property and he came down for a conference with them about 12 o'clock. Nothing, however, could be done without the Clerk of the Superior Court, and Mr. Bellamy advised his clients to wait until to-day. Bond will then be given for the property and a counter attachment may issue against the personal effects of the Oriental theatre people, who, it is claimed, are due the carnival management a commission on their receipts. The officers remained in charge of the tents last night. The papers are returnable at Superior Court here on December 4th.

Attachment Led to Confusion.

When the attachment was served on the animal show at Front and Market streets last night, Deputy Sheriff Cox went up on the platform in front as the show was in progress and cleared the platform. Policemen M. P. Newton and other officers in the vicinity saw the commotion and, not knowing of the attachment, ran up to quiet the trouble. In the confusion, the policeman and Deputy Cox misunderstood the motives of each other and before the difficulty was over some rather hot words were exchanged. However, the trouble soon blew over and Deputy Cox remained in undisputed possession of the field. Zach Lumley, a young white man of the city, came between Officer Newton as he went to stop the commotion and was placed under arrest for interfering with an officer.

GREAT MASONIC BAZAAR.

Arrangements Going Merrily On—Interest in The Fair.

As the time approaches, prospects grow brighter for a magnificent success of the Masonic bazaar to be given in the temple next month, the proceeds being for the purpose of installing an elevator in the building. The various committes are busy with arrangements for the big fete and every department of the work is being carried forward satisfactorily. In the near future the programme will be announced and it will be seen at once that the fair is to be on a grand scale. Donations are coming in rapidly and the Masonic fraternity generally is manifesting a lively interest in what is being done.

The flower show idea has been enthusiastically received and that promises to be one of the most brilliant features of the big event. The number of exhibitors will no doubt be large, and the crowds to see the show will not doubt be very large.

APPEALS FROM THE MAYOR.

Two Defendants Take Their Cases to the Superior Court.

Two appeals from judgments by the Mayor in the municipal court were taken yesterday. Messrs. Jno. R. Tolar and "Lutie" Croom were the appellants and each gave bond for their appeal to the Superior Court in sums of $25 each. The cases were separate ones, the first named defendant being charged with disorderly conduct, near the front of the Dixie Cafe; and young Croom with an affray on the carnival grounds with a young man out of town, S. P. Hewett. Each was fined $10 and costs from which they appealed.

Dr. C. T. Harper, city superintendent of health, became surety for Mr. Tolar, who, it seems, had some words with Officer Leon George. The policeman, it seems, gave the citizen as good as was sent and one word led to another until the arrest was made.

The Consolidated Company will operate the half-hour schedule to-day from 1 to 8 P. M. From 9 A. M. to 1 P. M. cars will run every hour. This is the same schedule that was operated last Sunday. Grayling Sale Confirmed.

An order was received yesterday from Judge Purnell, confirming the sale of the tug Grayling to Mr. M. J Corbett, for $650. The court costs of the sale were something over $200 and the claims aggregated something over $1,000. It will be seen, therefore, that when all the costs are paid the creditors will receive only a part of their claims.

WILLIAM H. BERNARD.

WILMINGTON, N. C.

Sunday Morning. October 22.

THE PRESIDENT'S RAILROAD POLICY.

Mr. Roosevelt's Raleigh speech appears to be attracting considerable attention from the Northern press, as the President stated very distinctly his position on the railroad question. He positively committed himself against government ownership of railroads in these remarks upon the subject:

"I do not believe in government ownership of anything which can with propriety be left in private hands, and in particular I should strenuously object to government ownership of railroads. But I believe with equal firmness that it is out of the question for the government not to exercise a supervisory and regulatory right over the railroads; for it is vital to the well-being of the public that they should be managed in a spirit of fairness and justice toward all the public. Actual experience has shown that it is not possible to leave the railroads uncontrolled."

The President went on to state that the remedy was to empower the Inter-State Commerce Commission to declare a freight-rate unreasonable and thereupon fix a rate which should be in effect till the courts reversed it. In brief that is what he means to say will be the effectual way "to exercise a supervisory and regulatory right over the railroads."

We gather from the President's further outlining of the power which he will ask Congress to confer upon the Inter-State Commerce Commission, that the measure will not be near so drastic as has been generally supposed it would be. There has been a great deal of talk about giving the Commission absolute power to fix rates from which there should be no appeal but the constitution of the United States would stand in the way of any such power as that. An amendment to the constitution might empower Congress to establish such a commission or court but it is a serious question whether a constitutional provision like that would not be a violation of one of the fundamental principles upon which this government is founded—the guarantee that every man shall have his day in court, or have the right of trial, as well as protection of life and property.

We rather think when the President's railroad measure gets to Congress it will not be near such a revolutionary policy as we have been led to suppose, but certainly any proposition for control and regulation of railways that is to come before Congress will hardly pass till serious consideration is given to the question whether the Inter-State Commerce Commission shall have sole supervisory power or whether each State shall retain the right to legislate and more or less control transportation matters, regulate railroads, etc. We don't know exactly what it is proposed for Congress to do but it is a momentous question and the proceedings at the next session will certainly be full of interest.

The Philadelphia Press (Rep) commenting on the President's speech says:

"President Roosevelt's address at Raleigh was a clean-cut, incisive statement of his position on the railroad question. He is squarely opposed to government ownership, but firmly in favor of government control. The two ideas are as wide apart as the poles, but they are maliciously or ignorantly confused by those who oppose all Federal supervision.

"Nothing can be plainer than his declaration: 'I do not believe in government ownership of anything which can with propriety be left in private hands, and in particular I should most strenuously object to government ownership of railroads.' This proposition can therefore be thrown out as totally foreign to the great issue of new railroad laws.

"But what the President will insist upon in his masterful way he outlines just as forcibly as he does his opposition to Federal ownership. 'I believe with equal firmness that it is out of the question for the government not to exercise a supervisory and regulatory right over railroads.' An administrative body that will have absolute power to forbid combination and to which shippers may appeal is what the President desires. This commission, or whether ever it may be called, should have the right not only to hear grievances, but to correct abuses. It should have the authority to say when rates are too high, to adjust differences, to halt the private car nuisance and to abate the terminal freze-out policy.

"Railroads which try to do the fair thing by shippers would be protected by such a body from the wildcat methods of railroad managers who are out for business at any price. The President's policy is now definitely laid down. It must appeal strongly to the railroads, big and little, as a 'square deal' proposition, and it holds out to the shipper a hope that at last evils which were vicious in every respect are to be corrected."

The New York World, in a paragraph, comments in quite another vein. It says:

"President Roosevelt in his Raleigh speech said he hoped public officials would be authorized to examine the books of railroad companies with the same power 'that is now exercised as a matter of course by the national-bank examiners as regards national banks.' The same as the books of $3,000,000 defaulter Bigelow's bank were examined in Milwaukee and the books of bank wrecker and suicide Clarke in Allegheny, Pa., for instance?"

The question is surely a knotty one. It doesn't by any means guarantee that government regulation will regulate any more than it does in the banking business. President Roosevelt has declared that government regulation will prevent the tendency to government ownership of railroads, and Col. William J. Bryan congratulates him on his railroad policy and endorses his position because it will ultimately lead to government ownership. To a layman the situation appears to be decidedly mixed.

CURRENT COMMENT.

—The greatest danger to the President on his Southern trip is that he will be made a target for one of Frank L. Stanton's "happy-times-in-Georgia" poems.—New York World.

—Municipal ownership of public utilities and private ownership of public men are both issues in the New York campaign.—Newark Advertiser.

—Secretary Wilson says that goats are better for some things than cows. Yes, they make better butters.—Atlanta Journal.

—Andrew Lee, former populist governor of Iowa; R. F. Pettigrew, former United States senator, and associates are organizing a million-dollar telephone company. They were all former trust busters and former republican spell binders, and are now organizing an independent telephone trust. The way to smash a monopoly is to compete with it and not submit to it or ask somebody to make speeches about it or prosecute it. If you want a monopoly smashed, smash it yourself.—New York Times.

—That was a horrible statement young Mr. Jordan, son of the former comptroller of the Equitable Life Assurance Society, made to the investigating committee. The committee was seeking to learn the whereabouts of the elder Jordan in order to secure some more definite information about that mysterious $658,000 loan, but the son stated positively that he did not know his father's whereabouts; that he had not seen him since Sept. 4th, and as a matter of fact he "did not know whether his father and mother were living or were dead!" and apparently he did not care. Strange how money, the possession or the thirst for it, comes very nearly oftentimes making monsters of men.—Chattanooga Times.

—The president on this journey will become fairly familiar with "the rebel yell." It is a searching cry, and comes from the heart. Had he been old enough, he would probably have made its acquaintance forty-odd years ago, when it was in its lusty youth. Then, as a Union soldier, he would have charged it. Now, it tickles his friendly ear, and gives him only pleasure. He will hear it wherever he goes. It is the same in Virginia as in Louisiana, in North Carolina as in Florida. It is all the better for not being a product of machine politics. One hears it at its best when the occasion is industrial or patriotic, rather than partisan, and when it is spontaneous, and does not show the influence of the drillmasters of the stump. Roosevelt is the sort of man to like that sort of cry.—Washington Star.

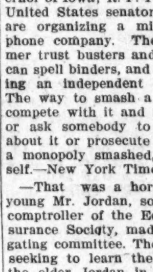
WARD OFF DISEASE

By fortifying your system with a reliable blood medicine. An alcoholic stimulant would do more harm than good and the reaction from it would leave you nearer complete prostration than ever before.



With stomach and blood in good order you can fight the battle of life successfully against all odds. GOLDEN SEAL ROOT (*Hydrastis*), is a famous remedy for dyspepsia, and QUEEN'S ROOT (*Stillingia*), has a direct action in promoting the renewal of the blood. Both of these are used in Dr. Pierce's Golden Medical Discovery in such a way, by skillful extraction, combination and solution without alcohol, that their best effects are secured.

Many years of actual practice convinced Dr. Pierce of the value of many native roots as medicinal agents and he went to great expense, both in time and in money, to perfect his own peculiar processes for rendering them both efficient and safe for continuous use as tonic and rebuilding agents.

The enormous popularity of "Golden Medical Discovery" is due both to its scientific compounding and to the actual medicinal value of the ingredients. The publication of the *names of the ingredients* on the wrapper of every bottle hereafter to be sold, gives full assurance of its non-alcoholic character and removes all objection to the use of an "unknown remedy."

Pierce's Pellets The Original LITTLE LIVER PILLS, first put up by old Dr. R. V. Pierce over 40 years ago. Much imitated, but never equaled. Little pill, Little dose, but give great results in a curative way in all derangements of Stomach, Liver and Bowels.

THE COTTON MARKET.

New York, October 21.—The cotton market opened easy at a decline of 4 to 7 points under realizing and selling for a reaction owing to disappointing cables and a less unfavorable weather map than was expected. SPIRITS TURPENTINE.

—The Durham Sun says President J. C. Kilgo, of Trinity College, has purchased the chair and desk used by President Roosevelt at Durham on Thursday; also, all the chairs and other furniture on the reception stand. They are in the College Memorial Hall and will be kept as a memorial of the President's visit.

—The distance to which the benefits of the Whitney Power Company's plant on the Yadkin will extend is evidenced by the paragraph in The Catawba County News: "The Whitney Power Company, in a recent communication to the Newton Hosiery Mill, state that the power on the Yadkin river will be completed and in a position to transmit about 40,000 horse power by July 1, 1907. This company is contemplating constructing a transmission like to Newton, the amount of power needed here by mills and factories determining the decision." The installation of this big plant is one of the greatest things that has ever been done for the industrial development of this section of North Carolina.

—At Spencer dispatch Friday night says: Charles Leonhardt, of New Jersey, to-night defeated Sam Murbarger, of Indianapolis, here in a three-round bout, winning the best two out of three falls. The match took place under canvas in Spencer Park, and was witnessed by several hundred people, including quite a number of sports from Charlotte, Asheville and nearby towns. A high gale just about night blew down the canvas, but it was raised again before time for the match. Both contestants had been in training and were in good trim for the contest. The match was clean throughout, there being no semblance of brutality. Leonhardt is a professional Graeco-Roman wrestler, and has a fine record. He is 44 years old, and weighs 164 pounds. Murbarger's style is catch-as-catch-can. He is 28 years old, weighs 168 pounds, and also has a fine record as a wrestler.

—A Salisbury dispatch on Friday says: J. C. Beard, a white man, was found dead this morning near Salisbury. His face was crushed and mashed into a pulp, supposedly with a club found near him. His pockets were turned out and robbery was evidently the motive of his slayer. His letter seems to show that he was from Pittsburg and was once councilor of the Junior Order in that city. The man was found lying on his face which was so badly stained that recognition of him is impossible. A message was sent to his supposed home, but no answer has been received. The coroner and officers are investigating the case, which is one of the worst in the history of this county. Sheriff Julian thinks he has a clue to the murder. The man showed no signs of having been drinking. Officers Cauble and Pool this afternoon arrested J. E. Waddell, a white man about 40 years of age, and placed him in jail. Waddell has been seen frequently within the last week, riding in a buggy with Beard and was noticed with him last night. He was taken before Justice Miller for a preliminary hearing and called for counsel. Messrs. Klutz and Klutz appeared and held a consultation but did not take the case. Waddell was too drunk to take care of himself and upon Mr. Theo. Kluttz's recommendation, the case was continued.

HAPPY RESULTS.

Have Made Many Wilmington Residents Enthusiastic.

No wonder scores of Wilmington citizens grow enthusiastic. It is enough to make anyone happy to find relief after like the following are but truthful representations of the daily work done in Wilmington by Doan's Kidney Pills:

J. E. Bloodworth, residing at 30 South Front stret and employed at 123 Princess street, says: "I used Doan's Kidney Pills and they have proven to be a very valuable remedy and I believe I am safe in recommending them. My back and kidneys have given me great trouble. I thought I had rheumatism. I had snooting pains through my back and sides which often made me yell right out. If I stood, sat or lay down or kept in any one position for any length of time it was almost impossible for me to move on account of the great pain. I heard some one speak of Doan's Kidney Pills, and I sent down to Bellamy's drug store and got a box. They completely removed the pains. They are without doubt, a valuable remedy for backache."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Full of Tragic Meaning.

are these lines from J. H. Simmons, of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough, that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At R. R. Bellamy, druggist; guaranteed; 50c and $1.00. Trial bottle free.

THE REAL TEST

Of Herpicide Is In Giving It a Thorough Trial.

There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vigors may look nice and smell nice, but the point is—do they eradicate Dandruff and stop falling hair?

No, they do not, but Herpicide does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use."

It is a delightful dressing, clear, pure and free from oil or grease.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

FEVER DISAPPEARING AT INFECTED POINTS

Up to Date New Orleans Had 3,359 Cases and 435 Deaths—Pensacola Record.

By wire to The Morning Star.

New Orleans, Oct. 21.—The following is the official summary of the yellow fever record at New Orleans up to 6 P. M. to-day:

New cases to-day, 7.
Total cases to date, 3,359.
Deaths to-day, none.
Total deaths to date, 435.
New foci, 2.
Under treatment, 92.
Discharged, 2,832.

This is the fourth consecutive day that no yellow fever deaths have been reported and it is taken as the best indication possible that the results of the fever campaign have been actual and not imaginary. At this time in 1878 the daily deaths were up in the thirties and occasionally went up to the forties. Several suspicious cases have developed in an asylum up town near Peters avenue.

The emergency hospital closed its doors to-day, the six remaining patients being discharged. They had all reached that stage where there was no danger in removal.

The State board of health today raised the quarantines of the State against the city.

Mississippi Situation.

Jackson, Miss., Oct. 21.—The yellow fever reports received at the State board of health office tonight were very meagre, several of the health officers in anticipation of frost, failing to send in their usual summary. The reports received were as follows:

Natchez, no new cases, no deaths; total cases to date, 179; deaths, 9; cases in county, 10; under treatment in city, 12; under treatment in county, 3.

Port Gibson, one new case.

Roxie, one new case; one suspicious case.

Vicksburg, no new cases; in county one new case, no new infection reported on the gulf coast.

Eight New Cases in Pensacola.

Pensacola, Oct. 21.—The fever summary for tonight is: New cases today, 8; total cases, 464; deaths to-day, 1; total deaths to date, 65; discharged, 279; under treatment, 120.

The steady decrease of cases, the low death rate and the much colder weather leads the officials to believe that it will be only a short time before the fever is completely eradicated.

CAROLINAS DOWNED BY NAVY

North Carolina University Foot Ball Team Lost to Annapolis by 38 to 0—Other Games.

By Wire to The Morning Star.

Annapolis, Md., Oct. 21.—The football team of the Naval Academy badly defeated that of the University of North Carolina here this afternoon, the score being 38 to 0. The visitors were as heavy as the midshipmen but did not tackle well and the fierce charging of the naval academy linemen prevented the North Carolina backs from getting any start. In the first half the Navy wore out the visitors by straight, hard plunges through the line and scored three touchdowns, all the goals being kicked by Norton. In the second half, the playing was much more open and Decker, Spencer and Bernard made brilliant runs. Four touchdowns were scored but all the goals were missed, three by Decker and one by Needham.

Indians and Pennsylvanians Fight.

Harrisburg, Pa., Oct. 21.—The Carlisle Indians defeated Dickinson college by 36 to 0 in a rough game of foot ball today at Island Park. Captain Davis, of Dickinson, was injured in a fight with Dubois, an Indian, in the second half and was carried off the field and placed in the care of a physician. Several Dickinson players were hurt but not badly enough to keep them out of the game in the fight between the two teams which followed the clash between Davis and DuBois.

COTTON LEAK CASE.

Roosevelt's Letter of Aceptance Quoted for the Defence.

By Wire to the Morning Star.

New York, Oct. 21.—President Roosevelt's letter of acceptance of the nomination for President a year ago or more was quoted by a lawyer today in defense of Moses Haas and Frederick H. Peckham who recently were indicted by the Federal grand jury in Washington on a charge of conspiring with Edwin S. Holmes, Jr., to defraud the government by securing advance information of the government's cotton report. The portion of the President's letter quoted was that "There is no common law of the United States that can give jurisdiction of an offense in a Federal court."

Decision on the motion to discharge Haas and Peckham from custody was reserved.

THE PRESIDENT IS IN FLORIDA

Nation's Chief Magistrate Had a Most Enthusiastic Reception At Jacksonville

MADE SEVERAL SPEECHES

Cheering Multitudes Greeted Him Everywhere—Will Spend Sunday in St. Augustine—Entertained and Spoke There Also

By Wire to The Morning Star.

Jacksonville, Fla., Oct. 21.—The reception to President Roosevelt today was a hearty one. Thousands thronged the streets, on his line of march and the President showed in his manner his appreciation of the good will that was manifested on every side. So far as comfort was concerned the day was ideal. A cool northwind had begun otblow during the night which prevented the delivery of the President's principal speech in the open air before the Seminole Club as it was thought that the wind would make it impossible for his voice to reach the assembled crowds. The speech was delivered at the board of trade auditorium where it was listened to with great interest and frequent aplause.

The Presidential party arrived here at 10:30 this morning on a special Southern train. On its arrival at the depot, where thousands of cheering people had gathered, a special reception committee of 100 leading citizens lined up, making a passageway through the depot to the street, where carriages were in waiting. The special committee consisting of Governor Broward, Mayor Nolan, President Warner, of the board of trade; United States Senators Talliaferro and Mallory, and Congressmen Sparkman Lamar and Clark, and Editors Wilson and Carter, then proceeded to the President's car and gave him a cordial greeting. The President looked fresh and vigorous after a night's sleep and expressed himself as delighted with being in Florida. The day was all that one could wish for. There were no formal exercises at the depot and as soon as the President and his party were seated in carriages, General Lovell, the grand marshal, ordered the First Florida regiment, which acted as escort, to march, and the parade began through the principal streets.

After driving through the principal streets the President was taken to the Seminole Club in the principal square in the city where thousands of people greeted him with rousing cheers as he made his appearance on the balcony. Mayor Nolan welcomed the President in behalf of the city and introduced Governor Broward who presented the President to the multitude. The President made a speech of good citizenship which was received with enthusiasm and great applause.

After the President had concluded, he was driven to the Jacksonville board of trade auditorium where luncheon was served. President Garner of the board of trade then took the visitors in charge and the President's entrance into the beautifully decorated auditorium was the signal for the most enthusiastic outburst the President had yet received. The interior of the large auditorium was decorated in a typical Florida manner with flowers, national colors, oranges and alligators. The President's speech at the board of trade was the principal event of the day.

At the conclusion of his address, the President was driven to the Third Baptist Academy, colored, where he spoke briefly. Preceeding his speech there was a brief ceremony in the assembly hall in which the students participated. This consisted of the singing of a number of songs, especially written for the occasion. The last one, entitled "You are all right, Teddy," caused the President to smile broadly. The President was then conducted to a stand in front of the academy where he made a speech.

Spending Sunday at St. Augustine.

St. Augustine, Fla., October 21.—President Roosevelt tonight is the guest of the oldest city in the United States. And St. Agustine has put on gala attire to welcome him. From the railroad station to the Ponce de Leon where he will remain until tomorrow night, the streets were made almost as bright as day with colored electric lights and red fire. The President's train arrived at 6 o'clock. He was met by a reception committee and driven to the hotel where he remained for about half an hour. On the way to the hotel the President was driven through the city gate where he was presented by the school children with a key to the city, made of flowers. The route of the drive from the station was crowded with people and the President was greeted with constant cheering.

A pretty feature of the drive which pleased the President imensely, was as his carriage was slowly passing through the city gates a party of young ladies stationed on top of the historical gates, showered his carriage with flowers.

The President was next driven to the Hotel Ponce de Leon where he will occupy an elegant suite of rooms while here.

At 7 o'clock the President was driven to Fort Marion where he delivered an address. Here a large crowd had gathered and the greeting to him was a warm one.

At the conclusion of his address the President was driven to the Valencia Hotel, where he was the guest of the board of trade at supper. He then returned to his hotel.

Tomorrow he will attend services at Memorial Presbyterian church fn the morning and in the afternoon probably will take a drive or horse back ride.

STUDENT REVOLT AT DAVIDSON.

Entire Sophomore Class Threatens to Walk Out.

Charlotte, N. C., October 21.—Unless three of their class, who were yesterday dismissed for hazing, are reinstated by Monday, the entire sophomore class of Davidson college, numbering about seventy-five, will walk out, all but six of the class having signed an agreement to this effect. Thursday night the sophomores corralled the entire freshmen class on the campus and made them go through military drill. Yesterday twenty freshmen gave the class yell on the campus and each received mild thrashing at the hands of the sophomores.

REFRIGERATOR CAR LINES

Southern Railway Officials Acknowlege Exclusive Contract to Use Armour Cars.

By Wire to The Morning Star.

Washington, Oct. 21.—The Inter-State Commerce Commission was unable to conclude its hearing of the private car line case to-day although it was announced that the list of witnesses had been exhausted. Counsel for the Armour Car Lines esdeavored to get an order closing the cases, in which hearings have been had, but Chairman Knapp said the Commission might require additional testimony. All of the cases were postponed, therefore, until November 1st, the date fixed for the hearing in the case of the two trass-continental lines named in the progress.

Lincoln Green, of the Southern Railway, testified that his contract with the Armour Car Lines for refrigeration prescribes that the charges must be reasonable and no higher than charges for like service for other lines.

"In my opinion, he said, the present rates are lower thas could be made by the carriers themselves. We have had no complaints from shippers."

It was brought out that the Armour Car Lines are able to handle the business economically for the reason they have it all, and are able to prepare for it. Commissioner Clements asked Mr. Green if he did not think the shipper should receive some of the benefits from this economical service. Attorney Northrup, for the Southern Railway, objected to the witness' answering on the ground that "the question was not one of railroad operation," but purely legal. While discussing this from a legal point of view, Attorney Reichman said the selfishness of the Armour Car Line would induce it to maintain a reasonable rate. Mr. Northrup added that the Southern Railway insists also upon reasonable rates. Commissioner Prouty interrupted to say:

"Then it is the selfishness of the Armour lise by grace of the Southern Railway on which the shipper depends."

Protesting that the Commissioner had stated the matter in an ungracious manner and unfairly, Mr. Northrup declared that "intelligence and business interests had built up the refrigeration business; that it was not a matter of grace. He said the Southern railway is proud of its record in building up traffic of every character in its territory and with the satisfaction given its shippers.

On redirect examination, Mr. Green said that the freight rate on ice if used for the refrigeration of fruits, was reduced is 1904 from $1.05 to 60 cents a ton, and he admitted to Attorney Barry, for the Commission, that under the exclusive contract the Armour Car Line was the only concern that could get the benefit of this rate.

F. W. Hazelhurst, of Macon, Ga., secretary of the Georgia Peach Growers' Association, testified in regard to the cost of producing peaches.

Hazelhurst's testimony was to the effect that "there is no profit in raising peaches and marketing them under the present transportation charges." He said shippers think the "total rate" of transportation is unreasonable, and the cost of refrigeration could be reduced. The witness estimated that it cost $270 to send a car of peaches from Georgia to New York, or about 45 cents a crate. As an organization, the witness said his association had not made any complaint against the refrigerator charges.

BETTER HOSPITALS IN SOUTH.

Surgeon-General Recommends Base Hospital at Norfolk.

By Wire to The Morning Star

Washington, Oct. 21.—Surgeon-General Rixey, of the Navy, in his annual report says that considerations growing out of the geographical position of Norfolk, Va., and the magnitude of naval interests in its vicinity, make it apparent that there should be located there a base hospital of the first class. He points out the demands made upon the present hospital at Norfolk and says the capacity should be increased so as to provide for 300 patients.

Our naval hospitals, he said, need to be moderized, but none so urgently as the one at Norfolk, because of its prime importance to the service, also because of very grave defects. An appropriation is recommended which will permit the Bureau of Medicine and Surgery to enlarge, remodel and renovate that hospital as speedily as possible.

The Surgeon General also recommends the establishment of a tuberculosis camp at the Port Royal, S. C., station, also to meet the needs of the service for a quarantine station when epidemic disease has grown beyond the ability of the general hospitals to care for it. Regret is expressed at the failure to secure action providing for the improvement and enlargement of that hospital. Attention is called to the large fleet that gathered in the waters of that vicinity during the winter.

After calling attention generally to the needs of the hospital service of the Navy, the Surgeon General says that while the work of renovation and service on a comprehensive plan is immediately desirable, it is thought that it's full accomplishment may be gradual, commencement begin made where the need is most urgent as at Norfolk and Pensacola. The Surgeon General Points out in detail what he considers the imperative needs of the Norfolk and Pensacola hospitals.

RICHMOND STRIKERS ENJOINED.

Strike Assumed Sensation Phase Yesterday—Now in Courts.

By Wire to the Morning Star.

Richmond, Va., Oct. 21.—The printers strike now on in Richmond assumed a sensational phase to-day, when every job printing establishment in the city, save one, united in a prayer to Judge Grinnan, of the chancery court, for a sweeping injunction against the local Typographical Union as a whole, and eighty-seven of its members as individuals to stop them as an organization and as individuals from interferring with the business arrangements of the printing establishments. The judge granted the injunction prayed for, which is returnable November 6th. It is expected that a motion to dissolve the injunction will be made Monday or Tuesday next.

Lake Erie Lashed Into Waves Mountain High—Helpless Barge Sunk With All on Board in Sight of Steamer.

By Wire to The Morning Star.

Chicago, Oct. 21.—Later returns from the storm which swept the Great Lakes for 36 hours, subsiding this morning increase the known death list to 21 and the number of vessels, either lost or damaged, to 42. Several smaller craft are missing and it is feared that the death list will be increased.

Sank With All On Board.

Cleveland, O., October 21.—The steamer Bulgaria came into port this afternoon, bringing news of the loss of the barge Tasmania, off Pelee island, in Lake Erie during Friday's big storm. The Tasmania sank at 5 A. M. Friday with her entire crew of eight men. The Tasmania together with the barge Ashland also carrying a crew of eight men were in tow of the Bulgaria. The boats were on their way to Cleveland from Escanaba, ore laden. The storm came up so suddenly as to find the crews unprepared. The darkness of night hung over the lake. The wind rose with fearful suddenness, howling and sweeping around the boats. The lake became mountainous. The boats were tossed about at the will of the storm. It looked for a time as if all would be lost.

The Ashland was lost to view of the Bulgaria. Those on board the Ashland could only dimly see the Tasmania. One moment she rode toward it on a great wave, another moment she receded in the trough of the sea.

On board the Ashland they were keeping from being washed in the sea only by clinging to objects on deck. It was seen that the line to Ashland must be cut. One of the crew made his way to the stern. With a knife he reached down and severed the line. The end of it dropped away out of sight. That was the last the crew of the Ashland saw of the other boat. It semed that she sank at once.

Steamer Founders.

Buffalo, N. Y., Oct. 21.—The steamer Siberia, of Cleveland, foundered on the Canadian shore of Lake Erie this afternoon. Captain Benham and the entire crew were rescued and brought to Buffalo tonight by the steamer J. H. Wade. The Siberia, buffeted by the terrific gale which raged yesterday and last night, sprang aleak early today while Captain Benham was trying to get under the lee of Long Point. The inrush of waters through the seams in her side and the tons of water shipped as the steamer struck her nose into the huge combers finally put out the fires beneath the boilers and Captain Benham and the crew were forced to take to the life boats.

Wreck on Lake Michigan.

Ludington, Mich., Oct. 21.—Four survivors of the schooner J. V. Jones which was wrecked in Lake Michigan during the great storm Thursday night and Friday were picked up and brought here today by the car ferry steamers Pere Marquette No. 18. Two of the crew, William Thomas and Ever Olfsen, were drowned.

WARM WIRELETS.

Mrs. Roosevelt, accompanied by John S. Elliott, commissioner of the interior for Porto Rico, arrived in Washington yesterday. Mrs. Roosevelt was in excellent health and spirits and had enjoyed the trip greatly.

In Paris yesterday, The Lebaudy military dirigible balloon made its third successful flight and maneuvred against the wind. Several army officers accompanied the ballon, dropping blank cartridges upon forts from an altitude of 6.500 feet thus demonstrating the practicability of launching prohectiles from dirigible baloons in times of war.

Westbound Missouri Pacific passenger train No. 40, carrying cars from Kansas City and St. Louis, was wrecked five miles West of Fort Scott, Ark., early yesterday, the result of a broken rail. The baggage and express cars, mail car, smoking car, chair car, and a sleeper left the track and turned over. Fully 30 persons were more or less injured, but no one was killed. Only three or four were seriously hurt.

In New York yesterday, Jacob A. Riis, friend of President Roosevelt and worker for reform in the poorer districts of the east side, declared that he should support Mayor McClellan "until he is elected, because he has made a good, an honest, an efficient and dignified mayor; because he is George B. McClellan, and deserves, and will get the thanks of the people of New York and their votes."

The schooner Charles H. Sprague, bound for Beaufort, S. C., which was in collision with the fishing schooner Thomas Brundage off Highland light near Boston, on Friday, grounded yesterday on the flats at Birds Island, while returning from Boston for repairs. She was pulled off later. The damages to the Sprague on account of the collision have been found serious. The port side of the vessel is badly smashed.

Francis B. Runder, cashier of the St. Louis postoffice, was arrested yesterday afternoon by Postoffice Inspectors J. T. Stice and Jorn D. Sullivan, following the discovery of an alleged shortage of $9,000 in his accounts. Runder was suspended by Postmaster Wyman prior to his arrest. He is 45 years old, married, and has been employed in the postoffice for 26 years, the latter nine, of which, he has been cashier. Runder was under bond for $100,000.

A wreck on the Louisville and Nashville railroad at Duff, Tenn., some six miles north of LaFollette, Tenn., yesterday morning, resulted in the death of three men as follows: Fireman Walker, of LaFollette; Brakeman Cornell, and George Gordan, sivil engineer, of Louisville. The wreck train was a work train, the engine drawing several light cars. The engine was said to be top heavy and when a sharp curve was reached, it turned over on its side.

ADAMS EXPRESS ROBBER UNDERGOES SWEATING

Cunliffe Was Stubbon and Refused To Tell Detectives Where 11,000 Is Hidden.

By Wire to the Morning Star.

Pittsburg, Oct., 21.—Edward G. Cunliffe who committed the $101,000 theft from the Adams Express Company, and who was captured Thursday at Bridgeport, Cosn., is a thoroughly exhausted and fatigued person to-day. Upon his arrival from the East last evening at 8 o'clock, he was imemdiately taken to the local office to the Pinkerton Detective Agency where he was put through a process of "sweating" by the officials that lasted until 4:30 o'clock this morning.

Notwithstanding the severe examination given Cunliffe by the officers, it is said, no additional admissions were secured from him. He is unusually stubborn and seems to feel that he has already talked too much for his ows good. The prisoner was exceedingly aggravated when he was told that nearly $10,000 more of the money was found wrapped as a laundry package in Bridgeport. It is believed he will act stubborn about the remaining $11,000, and will only reveal its location when he is assured of clemency by the courts.

Rumors of ill-treatment said to have been accorded Cunliffe during the "third degree" process are persistent While it is known, food was taken into the examination room about 2 o'clock this morning, it is not known whether Cunliffe partook of it. One important requisite of the "third degree system is that of eating before a hungry prisoner. This afternoon a commitment to jail was issued against Cunliffe on a charge of larceny. The hearing was set for October 27th.

Burned Some of the Money.

Bridgeport, Conn., Oct. 21.—The Bridgeport police believe to-night that they have accounted satisfactorily for all the $101,000 taken by Edward G. Cunliffe from the Adams Express Company in Pittsburg, and brought by him to this city. In the opinion of Detective Captain Arnold, based on his investigation to-day, Cunliffe told the truth at his arrest, when he declared that he burned a part of the money stolen, fearing that its possession would lead to discovery. Mrs. Henry Clark, a chamber maid at the Arlington Hotel where Cunliffe had a room while here, told Captain Arnold to-night that on October 11th, the day after Cunliffe went to the hotel, she found some black stains like those of wet charred paper on the carpet in his room and also found stains on the bathroom floor, while the bowl in the bathroom was clogged with burned paper.

NELSON'S GREAT VICTORY.

Great Britain Celebrating One Hundredth Anniversary of Naval Hero.

By Cable to The Morning Star.

London, October 21.—In every part of the British Empire to-day and wherever a British man-of-war floats, the one hundredth anniversary of Nelson's victory over the combined fleets of France and Spain off Cape Trafalgar is being celebrated. On all the ships of the navy at a given hour flags were dipped while the bands played the dead march. Nelson's old flagship, the Victory, still, lying in Portsmouth harbor, was decked from stem to stern with bunting and thousands of electric lights were strung everwhere for the night illumination of the old battleship.

In London the day's celebration began with the hoisting National flags on the Nelson column. Immense crowds assembled and when Nelson's famous signal "England expects this day that every man shall do his duty," was unfuried, a mighty cheer went up. Services which were all largely attended were held simultaneously in St. Paul's cathedral where Nelson is buried and in other churches

KILLING IN RALEIGH.

Fakirs Following State Fair in Shooting at Station.

(Special Star Telegram.)

Raleigh, N. C., Oct. 21.—Charles Smith, a fair follower, from Petersburg, was shot to death shortly after 4 o'clock in the Union Station here today and two other fakirs are in jail, charged with implication in the killing. They were involved in an altercation and began firing at each other when a stray ball inflicted Smith's fatal wound. He was merely a bystander. Seven shots were fired. The crowd was panic stricken, officers having the greatest difficulty in finding witnesses who swore which man fired the fatal shot. Their names are Harry Clark, of Mexico, Mo., and Robert E. Lilliston, of Norfolk. They had a quarrel in a disreputable house last night and threats to kill were exchanged. The assault this afternoon was the result. The ball entered Smith's back. He walked about ten feet after being wounded before he sank into a seat. Both men got out of the station and ran some distance before the officers overtook them. The wounded man was carried to the hospital within half hour.

Coal -- Wood -- Coal

A Convenient Way to Buy Coal.

We have a constantly increasing number of customers who purchase their Winter's coal supply as they are able. When they have the price, they buy a ton, pay for it, and have it sent home. A little later on they get another ton and so on until their full supply is all in. Doing it this way the weight of the whole purchase is not felt. At the same time they have their fuel supply laid in and paid for ready for use before the Winter comes.

If you cannot order your whole supply at once try this plan. We are as pleased at receiving an order for one ton and give the same attention as one for a large quantity.

Anthracite Egg	$6.50 per ton
Anthracite Stove	6.50 per ton
